

Clean Builder Program

(A Program designed to prevent littering at construction and demolition sites)

PARTICIPANTS: Property owners, developers, engineers, architects, general contractors, sub-contractors, waste haulers and CBIA members.

OBJECTIVE: To achieve better handling of waste materials and recyclables through voluntary compliance.

TARGET AREAS: Construction and demolition sites, adjacent community streets and rights of way.

GUIDELINES:

- Inform all employees and subcontractors of the Clean Builder Program and your intent *to Keep a Clean Job Site, reduce and recycle materials.*
- Evaluate recycling opportunities for lumber, shingles, tiles, drywall, cardboard, metal and other materials.
- Identify salvage materials to be sold, recycled or donated.
- Place trash receptacles at strategic points on the job site, including covered containers for employee garbage.
- Provide construction roll-offs and receptacles that are adequate size.
- Ensure roll-offs and receptacles are emptied before overflow.
- Secure excess on-site materials.
- Post reminders not to litter.
- Use Filtfence in proximity to water.
- Conduct end-of-day cleanups.

NOMINATION/RECOGNITION PROCESS: Nominate yourself or another contractor/builder for Clean Job Site recognition during the construction process. Complete the nomination form and send, fax or e-mail information to Keep Collier Beautiful, (mailing) 50 Riverside Circle, Naples, FL 34102, or fax 239-774-7424, or e-mail litternot@earthlink.net . Judges will visit the site over a month’s time and select winners quarterly. A temporary sign will be placed at the site to acknowledge the recipient’s contribution toward building a Cleaner Collier. Winners will also be recognized on the CBIA and KCB web sites and press releases will be submitted to local media.
